Jonathan Lee

Wendell Lee

**Welcome!** You invest a lot in making the best possible products, but without nameplates, your products are anonymous. Give them identity and turn them into your best advertisement by adding branded nameplates.

We continue to focus on increasing longevity. Our latest coating is better than ever, taking the durability of our die-struck plates to the next level (see page 5 for details on durability).

You will find many options in this catalog! We are happy to answer your questions and help you find the best nameplates for your products. We're here to help you succeed. Call us today.

—Jon and Wendell

*From the front cover:*

Patiova remakes backyards into extensions of home, furnishing them with beautiful and durable furniture, arbors, and playsets. They sign every piece with a premium nameplate, a stamp of quality and a signature of craftsmanship their customers will remember.

NAMEPLATES GIVE YOU

## Identity

Nameplates can also carry the unique serial number of a product, allowing easy access to specific information and saving everyone time.

Just as all vehicles carry the automaker's name and emblem, a nameplate provides simple and memorable identification.

NAMEPLATES GIVE YOU

## Information

A nameplate is a stamp of authenticity that the product was indeed produced by the manufacturer, reinforcing a quality reputation.

NAMEPLATES GIVE YOU

## Authenticity

People buy products that their friends use and trust. A nameplate keeps a business's name in front of potential customers.

NAMEPLATES GIVE YOU

## Advertising

In case of repossession, theft, or confusion, the nameplate proves ownership, especially when numbered.

NAMEPLATES GIVE YOU

## Ownership

## How Long Will My Plates Last?

Your quality product deserves a plate that looks nice, not just today but in the future. Keep these factors in mind as you choose:

**Coated Black** (pg 8) and **Durablack** (pg 9) have both been subjected to the equivalent of 12 years exterior exposure with no signs of degradation.

**Full color plates** (pg 6), **bike plates** (pg 14) and **Tacker plates** (pg 15) have a life expectancy of 6 years before they start fading significantly.

**Die struck plates** (pg 12) are receiving a new automotive grade clear coat that we expect will preserve them much longer than in the past.

We expect **screen printed plates** (pg 11) to look nice for 2-3 years. An optional clear coat (available on silver aluminum only) will greatly extend their life.

These estimates are based on average conditions. Sunlight, heat, the direction the plate faces, the tilt relative to the sun, and any shade or reflection can make a significant difference in the durability of your specific application. We are passionate about helping you find a plate that works best for your unique situation. Please see the product descriptions for other helpful information.

# Simplify and Integrate!

Simplify and integrate your processes with **sequential numbering**. When each shed has a unique identifier, you can track all important information in a spreadsheet, software program, or notebook. This saves you time and ensures accuracy during the sales and delivery process.

Adding **QR codes** or **barcodes** to your plates allows you to increase accuracy through the entire process. You can also use them to direct customers to your web site or payment portal, or share your contact card.

A number of companies offer services that integrate design, numbering, tracking and other useful services to the shed industry. We have listed a few below. We welcome others to connect with us and appreciate feedback from our customers on how these companies serve you.

SHED SUITE

**Shed Suite** | Sarasota FL  
941-877-0427 • [shedsuite.com](http://shedsuite.com)

Real time lead, inventory, and order tracking. Hopes to soon be able to integrate your serial numbers into their system.

**Shed Hub** | West Union, OH  
937-217-4398 • [jeff@shedhub.com](mailto:jeff@shedhub.com)  
[shedhub.com](http://shedhub.com)

Shed Hub's tracking system is easy to use from a standard cell phone. They use a predetermined number system which identiGrow can integrate into your plates.

**My Shed** | Lebanon, TN  
870-918-7085 • [matt@myshed.io](mailto:matt@myshed.io)  
[myshed.io](http://myshed.io)

3D Shed Builder program, real time material tracking, and seamless connections between manufacturers, RTO and haulers. Flexible serial number options.

**Customer Aligned Logistics**  
425-359-3279 • [calcanhelp.com](http://calcanhelp.com)

Affordable Shed POS and Order Management software solutions. Flexible serial number options.

# Full Color Aluminum

 Low Quantities  Durable  Full Color Option

A durable full color plate, UV coated. Particularly good for multiple colors, since there are no additional color charges or setup fees.

# Coated Black .040 Aluminum

 Low Quantities  Extremely Durable

A durable plate and an excellent option for lower quantities or larger plates. Life expectancy is above average. Low turnaround time.

The pricing below is for black plates. Other colors may be available by special request, but the price may be slightly higher. These plates engrave to silver aluminum.

# DuraBlack .020 Aluminum

**25+** Low Quantities  Highest Durability

This is our *most durable plate* and is a good option for lower quantities. Life expectancy is 15–30 years and may be much longer; current testing suggests a minimum of 12–15 years. This plate is a standard for government ID plates because of its superior resistance to fading, abrasion, temperature, and chemicals. It is available only in black and engraves to white.

# Laser-Engraved Custom Plastic

**25+** Low Quantities  Durable  Custom Shapes

A custom-shaped and extremely durable plate, with quantities as low as 25! Engraved from exterior plastic, we have had no complaints about these plates fading or deteriorating in any way. Current testing shows a life expectancy well over 10 years on standard colors. For sizes not listed below, ask for custom quote.

PRODUCT SPOTLIGHT: #VN14 p. 22

# 3D Plastic Nameplates

page 20–25

Fox Country Sheds builds a striking array of sturdy outdoor structures of every type. They use a 3D Plastic nameplate; the raised plastic will remain even if the sun does its worst.

# 3D Custom Plastic

Legible Forever  High Quantities  Custom Shapes

3D plates are good performers, and a popular and extremely economical option for high quantities and custom shapes. UV protection is recommended for longer durability. 3D plates are legible for many years after the color fades or they are painted over by the customer.

# 3D Plastic—Specialty Sizes

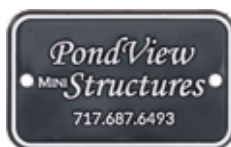

Great Value for Small Plates  High Quantities

## MINI 3D PLASTIC

Perfect for smaller sizes in either **rectangle or oval**, up to 1 ½" x 2 ½" in size. We've negotiated the price so you can economically label those smaller items; don't miss these savings!

For a reverse imprint (with the surface of the plate raised and the letters indented), a double set-up charge applies.

Anything you find on [www.hitpromo.com](http://www.hitpromo.com) is available from Identigrow.

# Order easily and accurately

## THE ORDERING PROCESS

### 1. Fill out the order form.

Even if you're not going to send it in, the order form will help you cover all the little details. If you're not sure what you want, fill out what you can and we'll help you with the rest.

### 2. Send us your information.

Call, fax, or email us. This will help us craft the plate that fits you best. With this information we will create options for you.

### 3. Choose your design.

Unless you have provided print-ready artwork, you now need to choose the final artwork for your nameplate. After you have chosen your plate and quantity, we will send you an official estimate.

### 4. Approve your estimate.

Sign, return, and make a partial payment. After you receive your plates, we'll send an invoice for the balance due. We bill for actual quantity. (Estimate +/- 10%)

### 5. Apply the plates to your products.

Always ask potential customers how they found out about you. Your product is your best advertisement!

## KEEP IN MIND...

If you want to reorder, you can simply email or call us.

Leave this step blank or partially filled in if you don't know exactly what nameplate you need. That's okay—we're here to help you!

We recommend a 1–2 year supply for best price.

Pricing for Sequential Numbering is listed on product pages.

Price and type vary by plate. See product page for standard options.

Availability and pricing for UV coating is listed on product pages.

**fax:** 1-540-283-9194

**email:** [sales@identigrow.com](mailto:sales@identigrow.com)

**mail:** IdentiGrow

PO Box 50

Port Republic, VA 24471

## KEEP IN MIND...

We have stock graphics available that you may use (see the examples to the right). If need be, we can recreate your existing logo or design something from your sketch; however, we do not consider ourselves logo designers.

For artwork that you send, we prefer .ai or .svg files (best), .pdf and .eps files (usually good), and .jpg and .png (can make work but not the best). Vector artwork is always better, but if you send a bitmap image, ensure that it is at least 300 dpi. A simple scan of your business card will not result in an image you are happy with.

Did a designer create your logo or choose fonts and colors for you? It always works best to get specific details from them. Spend some time finding the best file you have and save time in the long run. The final result will be much nicer.
