Jonathan Lee

Wendell Lee

Welcome!

You invest a lot in making the best possible product, but without nameplates, they are anonymous. Make them your best advertisement by branding with nameplates.

You will find many options in this catalog. We are happy to answer your questions and help you find the best nameplate for your products.

Our goal is to help you succeed.

Call us today!

—Jon and Wendell

Our First Nameplate

Eli Slabaugh & Sons

McGaheysville, VA
(540)289-9339 (800)232-2905

About 30 years ago our pastor asked if we could make nameplates for his shed business. We eventually found what he was looking for, and the rest is history.

Thank you Eli for being a part of our history!

Identity

Many well-known products show their company name front and center—and so should yours.

Nameplates can bear the unique serial number of a product, linking to details of its manufacture.

Information

Nameplates show that you are happy to let the customer know who you are.

Authenticity

Nameplates will bring your customers' friends to you.

Advertising

Ownership

A nameplate with a serial number on a lost or stolen item can help identify the owner.

Large Metal Vents

Low Quantities

Extremely Durable

These 7" × 16" aluminum vents simultaneously vent your building and display your information.

Made from .060 Matte Black Coated aluminum, they are sturdy and durable. Your information, engraved in the center, should be visible for many years. Vent screen not included.

Item#	Size	Setup	25	50	75	125	250	500	1000	2500

#CB - Pg 10

SPOTLIGHTS

Edifice returns sanity, organization, and neatness to life by creating a place for hobbies and providing backyard storage solutions. They use a large, custom-shaped nameplate to identify their buildings.

#CB - Pg 10

Mast Mini-Barns identifies each structure they build with a Coated Black nameplate. They make sure their name and contact information is available to every person who admires their products.

#DB - Pg 16

Fleetwood Carts manufactures lightweight carts that are comfortable, well-balanced, durable, and classy. Each cart is identified with a DuraBlack nameplate— the most durable plate we offer.

DuraBlack .020 Aluminum

Low Quantities

Highest Durability

This is our **most durable plate** and is a good option for lower quantities. Life expectancy is 15–30 years and may be much longer; current testing suggests a minimum of 12–15 years. This plate is a standard for government ID plates because of its superior resistance to fading, abrasion, temperature, and chemicals. It is available only in black and engraves to white.

SPOTLIGHTS

Nameplates are important in many industries. They highlight your brand, serialize your product and provide useful information to the customer.

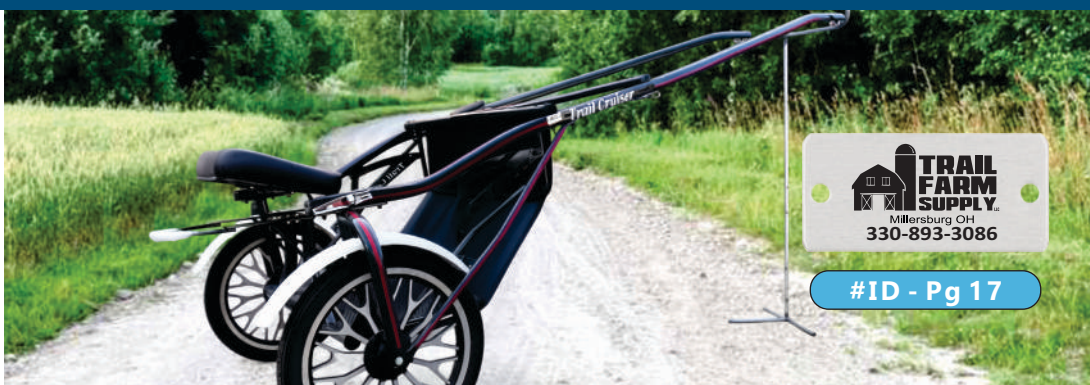

#FC - Pg 8

Wall-Lift makes it easy for one man to safely lift a wall while the crew builds the next one. Find them on facebook and online at wall-lift.com. Specs and warnings for each unit are printed on a two-sided full color aluminum plate.

#ID - Pg 17

Innovative Poultry Products LLC provides durable and useful tools that simplify the life of today's commercial poultry farmer. They use serial numbers on their die struck plates so they can efficiently track and service each unit.

#ID - Pg 17

From start to finish, every Trail Cruiser cart is designed and built in house with the customer's comfort in mind. Each cart is identified with a die struck plate.

Bike Plates

Durable

Full Color Option

High Quantities

This embossed metal plate stands out! It comes in one standard size (2 7/8" x 6") with 2 holes included in the base price. Stated longevity of ink is 2–4 years, but we have customers who say the plates last well for many years. Spot color prices include one plate color and one imprint color, chosen from the colors shown. Actual colors may vary.

SPOTLIGHTS

#BN- Pg 26

Wanna Buy Sheds, based in Walhalla, MI, attaches a 3D barn-shaped plastic nameplate to their buildings. A 3D plastic plate not only has the advantage of being economical but will be legible almost forever.

#CDOC- Pg 25

Since 1984, California Custom Sheds, Inc, has served folks in a four-county area of California. They are happy to customize a shed for a specific need. They use 3D plastic plates on their buildings to encourage repeat sales.

SPOTLIGHTS

#CDBK - Pg 19

Brookside Timber Frame timber frame masterpieces are truly a work of art. Each project is pre-cut and pre-finished so that it stays clean while it is being constructed. A 3D plastic nameplate with serial numbers allows them to track each project.

#CDBK - Pg 19

Shed solutions from Dayton, VA, identifies their products with 3D plastic plates. The raised letters on a 3D plate will be legible long after the color fades, giving long term advertising.

3D Custom Plastic

Legible Forever  High Quantities  Custom Shapes

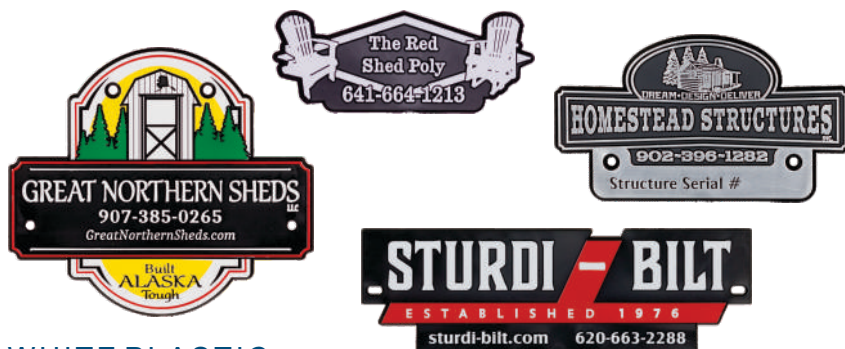

3D plates are good performers, and a popular and extremely economical option for high quantities and custom shapes. UV protection is recommended for longer durability. 3D plates are legible for many years after the color fades or they are painted over by the customer.

Order easily and accurately

THE ORDERING PROCESS

1. Fill out the order form.

Even if you're not going to send it in, the order form will help you cover all the little details. If you're not sure what you want, fill out what you can and we'll help you with the rest.

2. Send us your information.

Call, fax, or email us. This will help us craft the plate that fits you best. With this information we will create options for you.

3. Choose your design.

Unless you have provided print-ready artwork, you now need to choose the final artwork for your nameplate. After you have chosen your plate and quantity, we will send you an official estimate.

4. Approve your estimate.

Sign, return, and make a partial payment. After you receive your plates, we'll send an invoice for the balance due. We bill for actual quantity. (Estimate +/- 10%)

5. Apply the plates to your products.

Always ask potential customers how they found out about you. Your product is your best advertisement!

KEEP IN MIND...

If you want to reorder, you can simply email or call us.

Leave this step blank or partially filled in if you don't know exactly which nameplate you need. That's okay—we're here to help you!

We recommend a 1–2 year supply for best price.

Pricing for Sequential Numbering is listed on product pages.

Price and type vary by plate. See product page for standard options.

Availability and pricing for UV coating is listed on product pages.

fax: 1-540-283-9194

email: sales@identigrow.com

mail: IdentiGROW

PO Box 50

Port Republic, VA 24471

KEEP IN MIND...

We have stock graphics available that you may use (see the examples to the right). If need be, we can recreate your existing logo or design something from your sketch; however, we do not consider ourselves logo designers.

For artwork that you send, we prefer .ai or .svg files (best), .pdf and .eps files (usually good), and .jpg and .png (can make work but not the best). Vector artwork is always better, but if you send a bitmap image, ensure that it is at least 300 dpi. A simple scan of your business card will not result in an image you are happy with.

Did a designer create your logo or choose fonts and colors for you? It always works best to get specific details from them. Spend some time finding the best file you have and save time in the long run. The final result will be much nicer.
